

DÜMMEN ORANGE®

ANNUALS, PERENNIALS, POT CARNATION

2026-2028

Order plants online!

Our Webshop Benefits

Our easy to use webshop is made for your convenience.

- Real-time availability
- Fast order confirmations
- Adjust your orders
- Surplus sales
- Import orders via Excel
- Substitutes
- Growth Strategies

Using our webshop can save you a lot of time, because you order directly on availability and your order is confirmed within minutes. You can easily adjust your orders online.

We help you out with handy tools like providing substitutes during the ordering process, an order import tool via Excel and we provide growth strategies to optimize your production.

Please visit our website for more information or scan the QR code below. Here you can also apply for an account.

About this year's Annuals, Perennials & Pot Carnation catalogue

For the first time, we are extremely proud to present the **Dümmen Orange All-in-One Catalogue**, bringing together our annuals, perennials and pot carnations in one complete collection. By combining these assortments, we want to make it easier than ever to explore our full offering, discover new possibilities and create inspiring combinations across categories. To support easy navigation, we have also included a clear chapter index throughout the catalogue.
Inside, you will discover exciting introductions across all product groups. In perennials, highlights include **Salvia Salute Lavender** and **Salvia Great Grape**, alongside brand-new series such as **Aster Aurora, Aster Planet** and the compact, early flowering **Coreopsis Radiant** series. Our **Bloomatch** combinations continue to expand, reflecting the growing consumer trend of mixing perennials and annuals for colourful outdoor living spaces.
Within pot carnations, we introduce new **Sprint** colours, **Red & Proud and Peach**, as part of the successful **Spring Festival** concept, as well as the striking new **Confetti Garden® Multicolor Daiquiri**.
Our annual assortment also brings many exciting innovations, including additions to the Confetti Garden concept, the introduction of umbrella brands **Idols, Potunia and Aloha**, the colourful **Nemesia Sweetie** series and impressive new **Dahlia XXL** varieties.
Across all categories, we remain committed to delivering reliable genetics, proven performance and varieties that help growers, retailers and consumers succeed.

Happy reading and happy growing!

The calibrachoa Aloha series stands out for its exceptional uniformity and compact, mounding growth, ideal for premium pots and packs. The Aloha Kona, Tik Tok, Aloha Double and Rainbow series all share the same habit and early flowering, making them easy to combine. Aloha provides predictable timing, a quick turnaround and strong performance from small pots to large hanging baskets. The Bloomtastic series has robust genetics, excellent rain tolerance and long-lasting, vibrant colour at point of sale.

ADVANTAGES FOR TRADE

- Uniform, compact habit: All Aloha series have a consistent, mounding growth for easy management.
- Early, reliable flowering: Fast, predictable finish for early market demands.
- Daylength-neutral: Performs consistently across various production windows.

ADVANTAGES FOR CONSUMERS

- All-season: compact, mounding habit keeps baskets and containers full and attractive all season.
- Vibrant Colour Range: Wide range of shades lets gardeners match any style or decor.
- Stunning Hanging Baskets: Ideal for show-stopping baskets, creating instant outdoor focal points.

Dahlia
Novation®

Novation Dahlias are early season and are a perfectly uniform series designed for grower programmability. All varieties flower within three days of another and have full, very densely branched plants that are ideal for high-density production. The large flowers form a strong contrast to the foliage and impress with both single and bicolours plays of colour.

SUMMER BEES
FOR A LONG COLORFUL SUMMER

Dahlia
Summer Bees

The 'Summerbee' Dahlia series brings summer all along the line: a reliable crop with high sales potential, a product with high ornamental value and a rich source of food for bees and bumblebees from summer to autumn. The varieties have a medium vigorous and well-branched upright habit and many single flowers in bright multiple colours.

Dahlia
Revelation

The Revelation Dahlia series has great vigour, making these dahlias an excellent choice for both large containers and landscape planting. Each variety explodes with large, semi-double flowers held aloft on strong stems above dark green foliage. New this season: two unique bicolours creating high visual impact and an exclusive appearance.

MARGARITA PLUS
medium vigorous

Bright colours, strong garden performance and reliable flowering make Margarita® a true standout in every outdoor space. This versatile Osteospermum series combines excellent branching with continuous blooming and a naturally compact habit, creating premium quality plants with strong consumer appeal. From early spring until the first warm summer days, Margarita® delivers vibrant colour impact with her large daisy flowers at retail and in the garden. Easy to grow, uniform across the series and available in an attractive range of eye-catching colours, Margarita® is the perfect choice for growers looking for efficiency and performance without compromise. Margarita® — bringing energy, colour and consistency to every season.

ADVANTAGES FOR TRADE

- Compact, uniform habit: Margarita offers homogeneous growth for efficient production and attractive retail presentation.
- Early flowering series: Fast finishing and early colour ensure a strong spring sales opportunity.
- Strong shelf appeal: Large daisy flowers and vibrant colours stand out at Point of Sale.
- Reliable performance: Consistent flowering and timing across the series support predictable sales windows.

ADVANTAGES FOR CONSUMERS

- Early season colour: Flowers quickly at home for an instant spring feeling.
- Compact, floriferous plants: Ideal for small pots, patios and balconies.
- Vibrant colour range: Bright shades combined with dark glossy foliage create strong colour impact.
- Excellent outdoor performanc with continuous flowering throughout the season.
- Easy-care enjoyment: Margarita's stay attractive with minimal maintenance.

Osteospermum Margarita

The Margarita series is a compact upright series with glossy, dark green leaves and large, daisy-like showy flowers with exceptional vigor in a variety of colours form early summer into autumn. Excellent heat tolerance and branching

The Idols umbrella brand for Pelargonium is designed to offer a comprehensive, uniform, and high-performance assortment across multiple market segments, ensuring horticultural consistency and strong consumer appeal. This expansive collection of series provides targeted solutions for different grower needs and consumer preferences, from durable garden performers to early, opulent bloomers.

ADVANTAGES FOR TRADE

- Uniform, Compact Habit: Rounded, compact growth for easy care.
- Early, Reliable Production: Ideal for early season production due to early and reliable flowering.
- Flexible Planning: Consistent flowering enables quick turnover and adaptable scheduling.

ADVANTAGES FOR CONSUMERS

- Superior Visual Impact: Bold, vibrant blooms create an instant "wow" effect.
- Sun-loving plant: stunning blooms that handle heat with ease.
- Self-Cleaning: Single flowers that clean naturally.

IDOLS

Savannah®

Pelargonium zonale Savannah®

The Savannah® series offers zonal pelargoniums with deep dark foliage that creates exceptional visual impact in retail settings. This reliable, uniform-growing assortment provides a diverse colour range to suit every market need. Recognized for its superior plant habit across all varieties, the series delivers consistent production performance while meeting consumer demand for eye-catching, high-quality plants. Its combination of distinctive appearance and grower-friendly uniformity makes it ideal for commercial production.

GREEN IDOLS

Pelargonium zonale
Green Idols

The Green Idols Series combines compact growth, early flowering, and a uniform round habit - ideal for early-season production. Named for its fresh green foliage, this optimized series merges the best-performing varieties from both the Green Idols and Green Series programs. The result is a reliable, naturally compact crop with excellent uniformity, reduced PGR needs, and strong market appeal - simplifying cultivation while ensuring quality results.

Pericallis
Mandala® Plus

This Mandala® Plus series delivers larger, longer-lasting blooms on naturally compact plants with exceptional branching. The dark foliage creates stunning contrast with vibrant flower colours, while short stems ensure perfect plant structure. Mandala® Plus offers outstanding drought and heat tolerance. The ultimate choice for growers seeking market-leading varieties that combine production efficiency with exceptional garden performance.

Discover Intrinsa®
plants powered for a greener future.

Intrinsa® brings advanced techniques through traditional breeding with the ambition of creating sustainable and economically viable plants for a greener future.

Connecting the world
Intrinsa allows for greater accessibility of plant material produced from more countries worldwide for a broader availability to your garden.

Transforming supply
Intrinsa advanced breeding techniques help make crops more reliable for greenhouse and nursery growers, ensuring a steady supply of your favorite blooms.

Making homes and gardens greener
Intrinsa technology identifies unique DNA patterns with natural disease resistance, reducing pesticide needs using these innate genetics.

Invest in the future
By investing in the Intrinsa® brand

Stronger, healthier plants
By advanced breeding technology

True beauty comes from within
Plant power breeding by Intrinsa®

Look for the icon
Look for the Intrinsa® icon to identify chrysanthemum varieties which have high resistance to CWR for a more sustainable and economically protected future.

Imagine a future... Where tobacco mosaic virus is a worry of the past

The Solution

Resistant plant sources are identified by inoculating breeding material with the virus and testing the level of resistance under controlled conditions favorable for TMV development. Resistant plants identified through this method are then used as starting material in the breeding process.

The Ultimate Petunia Collection for Exceptional Colour and Performance. Introducing the Potunia umbrella brand—the market's leading series for vibrant colour, phenomenal blooming power & offers reliable quality. The Potunia family of petunias is bred for superior garden performance, making them the perfect choice for baskets, containers, and mass plantings.

ADVANTAGES FOR TRADE

- Early & Uniform: Early-flowering series with consistent size and rounded habit.
- Compact Growth: Naturally compact, mounding plants.
- Retail-Ready: Strong vigor and long-lasting blooms keep plants attractive on the bench.

ADVANTAGES FOR CONSUMERS

- Ideal for Small Spaces: Perfect for containers, patios, and balconies.
- Beautiful Displays: Trails to fill baskets, pots, and patios with cascading blooms.
- Low Maintenance: Self-cleaning habit means less upkeep and more enjoyment.

Petunia
Potunia®

Perfectly mounded habit that grows like a bubble makes Potunia the grower´s petunia series for premium pots and bountiful baskets. Several varieties are now Powered by Intrinsa, providing TMV-resistance.

Portulaca
Cupcake

This vigorous variety delivers non-stop blooms from spring to fall with exceptional heat and drought tolerance. Naturally compact habit requires minimal PGRs, while its strong branching creates perfect groundcover density. Ideal for high-efficiency container production (12-13cm) or landscape plugs. Meets rising demand for low-water, pollinator-friendly annuals with outstanding shelf life and consumer performance. A profitable, climate-resilient choice.

About this year's Pot Carnation assortment

We are pleased to present the Dümmen Orange pot carnation assortment in this catalogue. We've fine-tuned the range for you, adding new products you'll love.
Sprint Red & Proud and **Sprint Peach** are two new colours within Spring Festival concept. Like all varieties in this concept, they are characterized by homogeneous, rapid growth. They are easy to cultivate and have a naturally compact growth habit that requires little or no growth regulators. They are suitable fore year-round cultivation and pot sizes from 10.5 cm to 12 cm.

In addition to these novelties, we are introducing our new **Confetti Garden® Multicolor Daiquiri**, the perfect mix from our two varieties in Berry Eyes series. They are very attractive for growers, consumers and retailers due to the high resistance to all weather conditions from the beggining of the cultivation to the final garden.

Carnelia®
Confetti Garden®

This Confetti Garden® collection offers a wide range of duo and trio mixes for pot carnations. It's not just about the perfectly coordinated colours and growth characteristics, but also about the right mixtures for the different areas of application. Lovely mixtures for occasions such as Valentine's Day, Easter or Mother's Day are possible, as are attractive pots at the start of the season or pretty arrangements for early summer.

Carnelia®
Viva Magenta

Viva Magenta is simply trendy with blooms in extravagant shades of pink and outstanding cultivation traits. With its bright magenta flowers, is an easy-to-grow variety which will delight growers, retailers and consumers alike! The upright growing variety is naturally very compact, so it needs no PRGs in cultivation. Production in 10.5 or 12 cm pots is recommended.

BERRY EYES

THE BEAUTY IN VIEW

Carnelia®
Berry Eyes

The new Raspberry Eyes with its special floral pattern and playful peach tone is the perfect complement to Strawberry Eyes. Her flower pattern in unusual colours is a real eye-catcher in the range and attracts end customers who are looking for something special. The particularly enchanting flowers are colour stable and have a seductive scent. Both varieties are resilient and have a naturally compact growth habit, which makes the use of growth regulators unnecessary. They are ideal for cultivation in 10.5 cm to 14 cm pots and impress with their long flowering window and good durability.

peman

Carnelia®
Peman (Overwintered selection)

The varieties from the weather-resistant Peman series are characterized by their superior tolerance for hot and cold temperatures. Their growth is extremely uniform and their requirement for growth regulators is low. They are suitable for both indoor and outdoor production. In the home, the new Peman variety truly comes into its own with its abundant, bright red semi-double flowers, creating a long-lasting display of blooms and an excellent overall shelf life. The latter is also noticeable at the POS of course.

About this year's Perennials catalogue

We are pleased to share with you the Dümmen Orange perennial assortment for 2027. We have hand selected the varieties in our offering for you. You'll find new additions including varieties like **Salvia Salute Lavender** with its unique lavender-colored blooms and **Salvia Great Grape** that has enormous violet blue flowers complimented by dark stems. You can also find new perennial categories including new series in **Asters, Aurora and Planet**, offering compact growing habits and blooms perfect for the late summer and fall season. And **Radiant** a brand-new series of Coreopsis grandiflora. The Radiant series offers a selection of 3 colours, Red, Yellow and Orange, all selected to be compact growing and bloom early in the spring, for the consumer they will continue to bloom throughout the warm summer months until first frost.

Bloomatch has expanded to include new colour combinations. Perennials as colour in combination with annuals is a trend that continues to grow as consumers are discovering the new possibilities to enhance their outdoor living spaces.

We continue to focus on our reliable **True Grower Genetics**. These varieties have been tested over the years in trials and proven performance in a wide range of conditions to deliver top quality and ease of production for the grower. You can find a list of all TGG varieties on the pages ahead and they called out throughout the catalogue as well.

Bloomatch: Take it easy!

Perennials meet Bedding and Balcony Plants! In addition to the successful Bedding and Balcony classic Confetti Garden, we have launched a new series called Bloomatch.

Our Bloomatch blends have been tested over several years to ensure reliable production for you. The varieties are perfectly matched to achieve an optimum product with absolute planning reliability.
What sets Bloomatch apart is the trendy and up-to-date colour blends that are sure to catch your customers' eyes. Matching modern labels are also available, providing you with a sales-strong addition to your range. The Bedding and Balcony plants component of Bloomatch already brings plenty of colour to the finished product – while perennials ensure long-lasting enjoyment for the end consumer.

Benefits of Bloomatch:

- **Long-lasting floral splendor:** With Bloomatch, you can offer the trade a new range of plants that not only look beautiful, but also last long for the end consumer. This means satisfied customers and repeat business.
- **Trendy colours:** Each Bloomatch blend combines high-quality products that harmonize perfectly with the latest colour trends.
- **Easy application:** Bloomatch is easy to handle and saves you valuable time and resources in production. The premixed blends grow perfectly together and offer a long sales window, as they show colour early on.

Don't miss the chance to complement your range and offer your customers a trendy and top-selling product.

Perennials Spring Assortment

Aubrieta gracilis
Rock On

Add a juicy burst of colour to dull early-spring days with Aubrieta Rock On. All selections are compact and mounding, making for excellent performance at the garden center. As a hardy evergreen groundcover perennial, Rock On's early vibrant colour will breathe renewed life into garden beds and borders and maintain a tidy spreading mound of green foliage throughout the rest of the year.

Gaillardia
Spin Top

Gaillardia aristata
SpinTop®

The SpinTop® series provides early colour that continues through the summer on a tidy mounded habit. Incredibly hardy to cold and heat and tolerant to hot, humid conditions, they are strong performers in almost every market. SpinTop® Mariachi are the right amount of extra with their brightly colored spoon-tipped flowers. A fun spin on a garden classic.

LaDiva

THE ELEGANCE OF LAVENDER

Lavandula angustifolia

Lavandula dentata

Lavandula stoechas

Lavandula angustifolia
LaDiva

La Diva angustifolia are tried and truly hardy English Lavender. Their unmatched performance during winter, spring and summer make them a must have for grower, retailers and gardeners alike! Due to the hardiness these English Lavender require a vernalization period and bloom best beginning in late spring and into summer.

Lavandula dentata
LaDiva Imperial
81086

Lavandula dentata LaDiva Imperial

La Diva Imperial is typically grown for the woolly gray foliage, this French lavender boasts the heaviest flower power we've ever come across in a French type. They withstand the summer heat and humidity with shining colour making them ideal for cut flowers.

Heat tolerant | Pot size 17 - 23 cm | Garden performance

There is a little something for everyone, La Diva Big Night with its loads of massive, deep purple flowers and durable foliage that will stand up to hot summer weather. Or try Berry Beautiful a perfectly compact and upright habit coupled with super-sized flowers and bracts that really shows best during the cool growing season of early spring making these perfectly suited for early programs.
