Schneider
youngplants

Catalogue 2026-2027

Annual, Biennial, Perennial

INTRODUCTION

Dear grower, dear partner,

You stand right next to it, and yet it remains a wonder: the germination of a seed. Here in Woudrichem we create the right conditions: we sow, care and provide the proper climate – but the mystery of germination continues to amaze us time and again.
And growth afterwards? That too goes beyond our effort. In Woudrichem we take care of the young plant during the first weeks, and then you take over to turn it into a flowering plant. Together we witness how something small becomes something extraordinary: a plant that blossoms, brings beauty, and makes this world a better place to live.
That is what makes our profession so special. You and we, together, working for a blooming world. An ancient profession indeed – yet always full of meaning and future.
With this conviction we are proud to present to you our new catalogue: a source of inspiration, variety and quality. Let us prepare together for the season ahead.

With kind regards,

The team of Schneider Youngplants

it remains a wonder

Push-Up Plates

We have 3 kind of push-up models available for you. The most durable and effective one is the table model, but we offer plastic and wooden models as well.

Air Transport

Schneider is co-operating with the IAA-Fresh company specialised in long distance transportation. Thank to their know-how and our inique system of tray and logistic solutions, where ever you are in the world Schneider youngplants is able to supply to you fresh and fast.

IIA-Fresh is a dedicated Air Freight Forwarder' with a wealth of experience in transportation of plants, cuttings, in-vitro material, cut flowers and flower bulbs all over the world.

They have a world-wide network, working together with dedicated, local agents and experts in the transport busniness. Their warehoude and domestic tranportation means are fully monitored and temperature controlled.

Transported on CC - Container

For shorter routes within Europe, our young plants are transported on CC - containers.
Within the Netherlands and surroundings Schneider chauffeur, Bram Verschoor delivers your young plants to you.
